Just what your kitchen needs

Q: Is a cooker hood necessary in your kitchen?

A: Definitely. The cooker hood helps to purify and absorb oily fumes when you're cooking. At the same time, it prevents your ceiling from being dirtied by oily fumes.

Suction* up to 393 m3/h

Timer - Simply press button and the hood will switch off automatically after 15 mins.

Clean Air - Rid your kitchen of residual oily smell after cooking, by pressing Timer button for 3 secs Fan motor will be activated for 10 mins at minimum speed to help purify and recirculate clean air into your kitchen.

Booster - Immediately reach maximum speed (speed 4) by pressing Speed 3 button for 3 secs when deep-frying. Hood automatically reverts to original speed after 10 mins.

Filter Saturation Alarm - after 30 hours of operation, a flashing signal on the operating panel advises you when cleaning is due for anti-grease filters. Similarly, after 120 hours of use, a different flashing signal tells you to replace carbon filters. This guarantees maximum efficiency of the product.

All hoods come with 6-month guarantee

All above models are Imported from Italy

Maintenance Tips

Wash aluminium filter once a week, simply spray and rinse

Replace charcoal filter every 6 ~ 9 months

Grease Cleaner Available

False declarations of Country of origin (C.O.O) of a hob/hood is prevalent in Singapore. Most of it goes undetected...

When customers focus only on the price or getting 'good' bargains without insisting on Country of Origin to be stated on the invoice.

On 18th July, Lianhe Zaobao reported about the public outcry in China when a Da Vinci, a "foreign-made" label was found to have falsified C.O.O of their furniture. This together with other C.O.O scandals have highlighted **a need for consumers to be more careful when buying products**. Does an Italian brand name mean that a product is Made in Italy? If importers/dealers are confident about their products, is there a need to hide the C.O.O? As a consumer, **what should you take note of?**

It is fast becoming a common practice for companies to leave out the C.O.O. and simply attach a foreign sounding name to a product. In the market for hobs, it is the same. For the same hob, different dealers/contractors will quote you different C.O.Os. Always request to see the original certificate of C.O.O or **request for the C.O.O to be written on the invoice, so that you can protect yourself against unscrupulous dealers/contractors.**

According to CASE, there isn't any bodies or regulations on how product information should be worded. **If you suspect that the product information given is misleading** and has breached the Consumer Protection (Fair Trading) Act CPFTA, **you can take legal action against the importer/dealer or demand a FULL refund.**

Falsely declaring the C.O.O is fraudulent and irresponsible. To avoid being duped, we strongly encourage customers to compare products across brands. Simply spare a minute or two to read about important buying tips and remember - if it's too good to be true, then it isn't true! **Be a wise consumer.**

Since 1985, Rhoixon has always insisted on selling genuine Italian goods, bypassing dealers to ensure savings are passed on to our customers. Here, we go the extra mile to make customers hob experts - how to differentiate the real deal (**Visit www.rhoixon.com and download "Hob experts" catalogues**)

谎称煤气炉、抽油烟机原产地， 在新加坡是极为严重及普遍的现象。 一般的消费者都不会察觉，因为…

只注重在价格，讨价还价，并没有要求在购买单据（发票）上，清楚标明是意大利制造的产品！

最近早报于2011年7月18日，报道中国搞到沸沸扬扬“出口转内销”的疑云风波，引发中国媒体广泛报导和舆论抨击的课题，事件持续扩大升温，让消费者惊觉连“进口”与“原产地”这么意思明确的字眼也有模糊的空间，那**消费者对于市面上的产品原产地到底要注意些什么呢？**

从市面上销售的货品，不难发现一些产品并没有直接打印出原产地的字眼。就如煤气炉行业，有些说原产地是意大利，有些说是日本，连零售商、装修承包商也不清楚。不同的商家，各有不同含糊的说法，所以消费者要多做一点功课，一般较明智有保障的做法，消费者可以向商家要求出示证明文件，或是**要求商家在单据上注明所销售的物品产自哪一国，作为将来发生争议的时候的凭据。**

消费者协会指出，目前我国没有一个统一的官方单位监督所有物品的说明与标签，由于没有一个规范，所以一些字眼就可以有好几种解读，**如果发现商家所声称的并不属实**，违反了保护消费者（公平交易）法令（Consumer Protection (Fair Trading) Act, 简称CPFTA），**消费者可以对商家采取法律行动，或要求商家无条件退货。**

谎称原产地，有“欺诈”的嫌疑，也是极不付责任的行为。如何避免被商家“误导”，保障自己不受骗，购买前不妨货比三家。详细阅读可信赖的产品资料，了解“天底下没有白吃的午餐”以及“一分钱，一分货”的硬道理，做个精明的消费者肯定不会吃亏。

乐声牌进口商，自1985年公司成立至今，坚持进口意大利炉具，直接销售无中介的经营模式，并以批发价、自行提货价让消费者直接受惠。公司甚至苦口婆心的教导消费者，如何成为行家，**要如何分辨真货与假货（上网 www.rhoyxon.com 下载“门外汉变行家”及其他目录与相关资料）。**
